

# A Unique Opportunity for Tree Advocates

## We're Branching Out!

[www.inlandurbanforestcouncil.org](http://www.inlandurbanforestcouncil.org)

The Inland Urban Forest Council supports the sustainable planning and management of the “green” urban infrastructure. IUFC promotes the proper care and management of trees for inland Southern California communities. On average, a large tree in the Inland Empire provides nearly \$3,880 in environmental benefits during its lifetime. (USDA Forest Service Center for Urban Forest Research)

IUFC events bring together leaders and advocates of the urban forestry community, including arborists, tree-care professionals, public officials, educators and concerned citizens. IUFC also partners with businesses, municipalities, utility companies, and government agencies. Please join us as a corporate sponsor or partner by emailing [IUFC2@aol.com](mailto:IUFC2@aol.com).

The **Inland Urban Forest Council (IUFC)** works to advance the greening of cities and the sustainable management of community forests of western Riverside and San Bernardino Counties.

The Council provides a network for inland Southern Californians to share information.

**The Council:**

- obtains region-wide funding for urban forestry projects
- conducts educational field trips, tours and workshops
- supports outreach events, such as Arbor Day and Earth Day.

The Inland Empire Council serves as the local voice to state agencies and organizations:

- IUFC is one of seven regional councils of the California Urban Forest Council (CaUFC).
- IUFC helps steer the state's urban forestry efforts by advising the California Community Forestry Advisory Committee for CAL FIRE.
